The UTSA Mathematics Department joyfully invites all **UTSA undergraduates** and **local high-school students** to participate in the **2007 UTSA Number Olympics UNO** (\*).

## Who can participate?

- Any UTSA undergraduate.
- Any high-school student in greater San Antonio.

## What's UNO about?

- Solving math puzzles.
- Engaging in friendly competition with other cool and smart students.
- Getting a head start in a career in science or engineering.
- Giving your brain a workout!

## High school and college?

**UNO** has two different levels, and prizes are awarded separately.

## Why should I do it?

- Because you know that **UNO**=1.
- Because you like to figure things out.
- For the fun, and prizes!
- For the prestige! (Add that **UNO** prize right to your academic resume.)
- Because your brain deserves it!

## So, what about the prizes?!

- Book bundle, *and*
- *Crux Mathematicorum* problem-solving journal subscription.
- *Plus*: Mathematical Association of America (MAA) membership.

## Sample problems?

Of course! Available at <http://math.utsa.edu> or see accompanying sheet.

## How do I register?

- Fax or mail form on reverse of this sheet (photocopies OK), *or*
- Download enrollment form at <http://math.utsa.edu> and e-mail [wanda.crotty@utsa.edu](mailto:wanda.crotty@utsa.edu)

## When and where is UNO?

- Saturday 29 September 2007.
- UTSA 1604 campus, Humanities and Social Sciences Building, room HSS 2.01.10.

---

**School Officials:** Certificates of participation will be given to schools entering at least three students. Prizes will also be given to the best-performing school(s).

## Questions?

Contact Prof. Eduardo Dueñez at 458-7326 ([eduardo.duenez@utsa.edu](mailto:eduardo.duenez@utsa.edu)).

(\*) **UNO** is partly sponsored through a Tensor-SUMMA grant from the MAA.
